2009 STARS Officers

We would first like to thank Greg Filliger N7RIA and Kelly Larkins N7IXI for their service as officers for 2008. They were part of the initial group of officers that started the STARS club. Their service to STARS was greatly appreciated by everyone. Kelly and Greg both have been Hams for many years, and a have a lot to

offer the Ham Radio community. We look forward to their future service to not only the Ham Radio Community but also to any future STARS office that either one may hold.

We would like to congratulate our new STARS officers for 2009. As re-elected President: Jeff

Holwege AB7DN, Vice President: Albert Wood KE7OUE, re-elected Secretary: Carolyn Lee KE7OXP, and Treasurer: Vanessa Volland N7ESS. The 2009 board looks forward to serving STARS.

These officers are going to do a great job for our club this year.

Seaside School District embraces Ham Radio For Their Emergency Communications Solution

On Nov 10th Seaside Oregon's School districts Superintendent Doug Dougherty, all of the school district Principals (One principal Sheila KE7VBG was already licensed), a Vice Principal and Staff from the School District took the Technician Ham Radio Class offered by STARS - Seaside Tsunami Amateur Radio Society. The class was taught at Seaside High School in an all day session with the exam following the class that same evening after a break.

The Ham Radio community here in Clatsop County is ecstatic to see this very proactive step taken by the School District Leadership. This action will give the School District a vital link with Emergency

services during a disaster or even other possible emergencies that we could have here on the Oregon Coast where all other forms of communications are lost.

A number of students in the school district are already licensed and actively helping with Ham Radio Communications during their schools Tsunami Drills that happen a couple times per year.

One of the teachers in Seaside High School Mike Brown - KE7RRO has started a Ham Radio club at Seaside High school. It is KE7YLB...SHS Seagull Radio and Technology Club. All of the Youth Hams in this area are excited about this club being formed.
